

Homework 03

Brandon Hosley

University of Illinois - Springfield

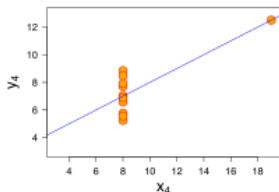

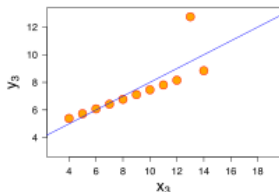

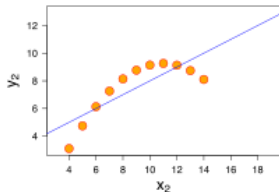

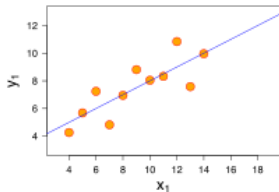

September 14, 2020

Overview

- 1 Q1: Linear Regression
- 2 Q2: Hastie and Tibshirani Summary

Linear Regression Problem 1: Simplicity

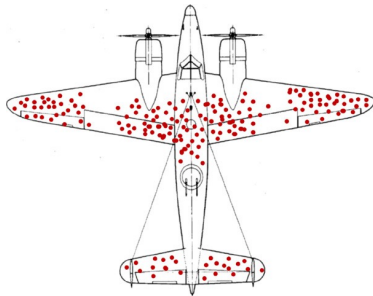

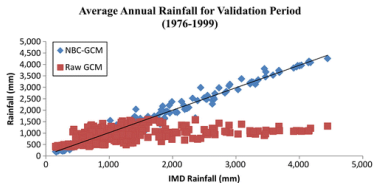

- + Computationally easy
 - Can only accurately represent simple relationships
 - Can only accurately represent linear relationships

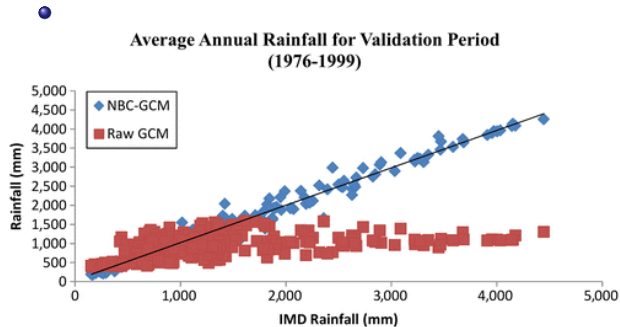

Linear Regression Problem 2: Selection Bias

Linear regression is susceptible to selection bias

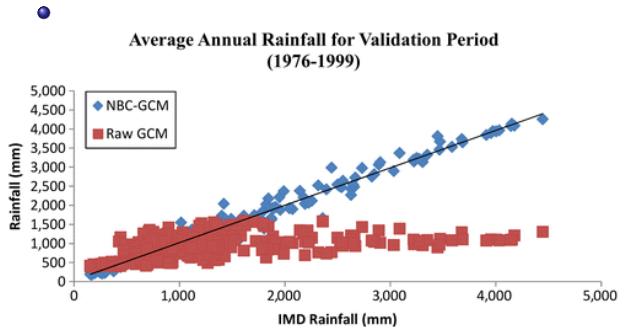

- A type of overfitting
- Occurs when a type of data is over-represented in test set

Linear Regression Problem 3:

Linear Regression Problem 4:

Hastie Lectures Summary
